PROFESSIONAL SUMMARY

Motivated AI and Computer Science student at Misr University for Science and Technology (MUST), specializing in UI/UX Design and human-centered product development. Completed a 4-month certified training program at the National Telecommunication Institute (NTI) under Egypt's Ministry of Communications and Information Technology. Experienced in designing and delivering end-to-end mobile application interfaces with a focus on user experience. Participated in IEEE Xtreme 19.0 — a global 24-hour competitive programming challenge — demonstrating strong algorithmic thinking and teamwork under pressure.

EDUCATION

Bachelor of Science in Computer Science (AI Track) *Sep 2024 – Jun 2028 (Expected)*

Misr University for Science and Technology (MUST) | Faculty of Computers and Information

- Cumulative GPA: 2.8 / 4.0
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Artificial Intelligence Fundamentals, Human-Computer Interaction

TRAINING & EXPERIENCE

UI/UX Design Trainee *2026 (4 Months)*

National Telecommunication Institute (NTI) — Ministry of Communications and Information Technology, Egypt

- Completed an intensive 4-month UI/UX design training program accredited by Egypt's Ministry of Communications and Information Technology
- Designed high-fidelity wireframes, prototypes, and user flows using Figma for multiple mobile and web application concepts
- Applied user-centered design principles including usability heuristics, accessibility guidelines, and design systems
- Conducted peer design reviews and iterated on feedback throughout the program

PROJECTS

Study Go — Mobile Learning App (Solo Project) *2025 – 2026*

Tools: Figma | Portfolio: canva.link/zbchgkvsolxftk5

- Designed a complete end-to-end mobile application UI/UX to help university students organize study schedules, track progress, and stay motivated
- Built a streak-based gamification system and friend competition feature to boost student engagement and consistency
- Created full design system including typography, color palette, component library, and responsive layout grids
- Delivered high-fidelity Figma prototype covering 15+ screens including onboarding, dashboard, task tracker, and chat interface

TECHNICAL SKILLS

Design	Figma, Wireframing, Prototyping, UI/UX Design, Design Systems, User Research
Programming	Python, C++, HTML, CSS, SQL
Tools	Canva, Git (Basic), Microsoft Office
Concepts	Object-Oriented Programming, Data Structures, Database Management, Human-Computer Interaction, Agile/Design Thinking

---

COMPETITIONS & ACTIVITIES

IEEE Xtreme 19.0 — Global Programming Competition

October 2025

Team: "bangGOAT" | Competed against 19,000+ participants worldwide

- Participated in a 24-hour competitive programming challenge organized by IEEE, one of the largest global coding competitions
- Solved complex algorithmic problems under high-pressure conditions covering data structures, graph theory, and dynamic programming
- Strengthened teamwork, debugging, and problem-solving skills through intensive collaboration

Google Developer Group (GDG) — Tech Events

2025 – 2026

Attendee

- Attended 2 GDG technology events focused on software development, AI, and modern engineering practices
- Engaged with industry professionals and student developers to explore emerging tech trends

---

CERTIFICATIONS

- UI/UX Design — National Telecommunication Institute (NTI), Ministry of Communications and Information Technology, Egypt (2026)
- Certificate of Participation — IEEE Xtreme 19.0 Programming Competition, Signed by IEEE President Kathleen A. Kramer (October 25, 2025)
